

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

SUNDHAR.L

Analysing Housing
Price in Metropolitan
Area of India

This project,we
have built a
machine learning
model to peditt the
house proze of an
indian
metropoliter

This peoject
will very
helpfull for
the real
estate market

Our model can
be used by
both house
selars and
house buyers

Point of
intrest

House coast
or lish in area
with all kinds
of essential
neets

It should be a
central place
that receives
peoples
attention

Parks etc, should
be arranged in
such away that it
atracts children

Street lights, road
sign, etc should
be proberly
located proper
drainage and
drinking water

Trees should
be planted
mainly on
the road said

Nowing the
minsets of the
consumer from
the beginng and
then now to eat

Noving that
the housing
units are
properly
sized

Prize very
depending on
the size off
the home
land

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
